

JEFFERSON CANYON MILL WILL SOON BE COMPLETED

Henry Bartlett Says Kanrohat Property Will Prove to be One of the Largest Low Grade Propositions in the State.

Henry Bartlett, who has been in town the last couple of days from his Round Mountain haunts, is busy boosting about the latest developments in that district.

"The Kanrohat property in Jefferson canyon, is being watched by the residents of the entire northern district," said Mr. Bartlett last evening. "The 50-ton capacity mill is expected to commence operations early in May. This is only to be a starter and a test mill. It has also a complete cyaniding and concentrating outfit being installed as part of the plant. After a several months' test of the different grades and character of ore, it is given out on the authority of the present owners of this famous property that not less than a 200-ton capacity plant will be installed immediately.

"As this property is now owned by New York capitalists who have so far shown no hesitancy in spending money, I fully expect them to carry out all intentions they may have.

"The property is known as the Kanrohat group and comprises sixteen claims and some of those claims helped to produce the many millions that were taken out of the Jefferson district in the early '70s. The group has both silver and gold bearing ledges, and while it is a low grade proposition this fact is more than offset by the immense bodies of ore that

are blocked out and in sight. All ores can be put through the mill at a cost of \$9 per ton. In addition to this, high grade bunches of ore are frequently encountered that go into the hundreds and carry free gold and silver.

"There are about fifty men employed in and about the workings at present and it is the intention of the present owners to increase this number very materially immediately after the starting of the mill, to develop and block out ores for their larger plant, which is expected will be in working order early in the fall.

"The resumption of operations in Jefferson canyon after an idleness of over thirty years, will mean much for the Round Mountain district. A great deal of activity is being displayed by the owners of adjoining properties and as soon as the financial conditions will warrant it, unquestionably the majority of these will be able to finance a treasury to resume operations and treat the immense bodies of ore that several of them have. These ledges were too low grade to treat profitably in the years gone by, on account of the heavy reduction expenses prevailing then, but which at this time can be milled at a handsome profit."

Mr. Bartlett predicts that twelve months from now will see more than 200 men at work on the Kanrohat and adjoining properties.

FORMER TONOPAH PEOPLE INJURED

Meet With a Serious Accident While Riding in an Automobile Near San Bernardino.

A San Bernardino, California, dispatch of the 14th inst., gives the following account of a severe accident happening to Ed Staubs, wife and boy in an automobile collision. Old timers in Tonopah will remember Mr. and Mrs. Staubs well, when it is called to their minds of the early stage coach days in Tonopah. Mrs. Staubs and son were passengers on the day that the horses after leaving Summit Springs ran away going down a steep hill, upsetting the coach, and in the smashup the little boy's arm was broken. Several other passengers were injured. Mr. Staubs was interested in the Tuscora Boys' lease on the Mizpah ledge, which made him wealthy. The dispatch says:

E. A. Staubs, a wealthy mining man who made a fortune in the Nevada fields, was dangerously if not fatally injured, and Mrs. Staubs and the 4-year-old son of the couple were badly hurt today in a collision between their automobile and a traction car on D street. Mr. Staubs and his family

had left their handsome home on Sixth street for a run into the country. Less than half a minute later they had turned north on D street and met a south-bound Colton car. At the critical moment one of two dogs which were in the tonneau of the machine leaped into the front part and so interfered with the steering gear that Mr. Strauts was unable to avoid the trolley car. The automobile hit the front of the car almost head on, and Mrs. Strauts was thrown high in the air and fell in the middle of the road. The child was thrown between the mud guard and the engine hood and struck on the track. Mr. Strauts was plunged downward against the sparking box. He was terribly cut about the face and suffered a compound fracture of the jaw and a broken leg. Mrs. Staubs suffered a fracture of the leg and the little boy a broken thigh. Internal injuries may develop in all three cases. The noise of the collision was heard for three blocks.

PRESENTED WITH HANDSOME SILVER SMOKING SET

SENATE SHOWS APPRECIATION TO CHIEF CLERK WILLIAM M. GRIMES.

William M. Grimes, who left Tonopah over two months ago weighing 115 pounds, returned yesterday from Carson greatly improved in health. Billy has been officiating in the late lamented state senate as chief clerk and his arduous duties seems to have agreed with him. He made the startling statement shortly after his arrival that he had gained six ounces during his absence. But then the brewery in Carson might be responsible for this great increase.

Just before the senate adjourned, the members of that body presented Billy with a handsome silver smoking set, showing their appreciation for his valuable services.

Senator Pyne, of Esmeralda, president of the senate, was also presented with a valuable gold locket in which was set seven large diamonds.

Both Senator Pyne and Billy responded with neat speeches, endeavoring to thank the donors for the gifts.

"The arrival of the Bonanza was the event of the day," said Billy, yesterday, "and every copy received was in demand. The paper made a hit with the legislators for the fight it made, not alone on the gambling bill, but on a number of other measures. It was the first to take the initiative on important matters that were up for legislation and its columns were eagerly read by both those who opposed or favored the bills.

"When the anti-gambling excitement was at its height cartoons from the Bonanza were posted in every conspicuous place in the city and those referring to a certain supreme judge were given a prominent place."

GOVERNOR HARD AT WORK.

Governor Dickerson is violating the labor laws that forbid the employment of any state employee more than eight hours a day. He has about 135 bills to consider, sign or veto, in the next nine days and he works all day at them, then comes back in the evening and puts in a lot of overtime that is not charged up to the state. As there is no one above him that can call him to account for working more than the legal time daily, it is possible that he will keep on violating the law until he gets the bills signed up.

CREDITORS ARE UNABLE TO AGREE ON TRUSTEE

FAIL TO EFFECT SETTLEMENT OF ROUND MOUNTAIN HY- DRAULIC COMPANY.

At the meeting of the creditors of the Round Mountain Hydraulic company, held in Tonopah yesterday, before the United States referee in bankruptcy, J. Poujade of Carson, the creditors were unable to get together and elect a trustee, there being a number of objections entered against some of the claims filed. An adjournment was therefore taken until the fifteenth day of April, at 10 o'clock a. m.

The hydraulic is still working its placer lease in the Round Mountain district during the progress of the bankruptcy proceedings. Last week's run amounted to 159 ounces in gold, which will mean net to the hydraulic company after deduction of all royalties and running expenses about \$10 to the ounce, and it is predicted by those who are on the inside that if permitted to run the full season that is now on, with the present enormous supply of water that they have, from now until July, they will be able to clear their debts, which total about \$50,000.

This company was incorporated less than two years ago and has expended about \$125,000 for pipe line and equipment. Half of this amount was paid off last year and there is no reason to doubt but what the other half will be liquidated during the present season.

From this it would look to a man up a tree that these bankruptcy proceedings are only an effort on the part of those concerned to grab the control of what is destined to be a big paying proposition.

REPAIRS FOR OIL DRILLS COME FROM LOS ANGELES

J. T. Minchin, of the Nevada-Bay State Oil company, has returned from Los Angeles, where he went some days ago to secure certain repairs for the machinery being used in drilling the well near Blair, and states that within a few days he expects to have everything in readiness for the resumption of work. The necessary parts will arrive in this city soon and will be conveyed at once to the salt marsh.

Location notices in triplicate—handiest affair for prospectors and miners—contains carbon—150 notices in book. For sale at the Bonanza office.

ESCORTED BY HIS CLASSMATES TO THE GRAVE

LAST SAD RITES PERFORMED OVER REMAINS OF LEON- ARD BLACK.

Escorted by classmates and a large number of friends and relatives, the remains of Leonard Black, the 11-year-old son of Mr. and Mrs. C. J. Black, who died Sunday evening as the result of injuries received by falling from a wagon Saturday morning, were buried in the city cemetery yesterday afternoon. The services were held at the Baptist church, the Rev. H. Warren Nice officiating. The fifth and eighth grades in the grammar school and the high school students were dismissed for the afternoon by Principal Schoer and the scholars attended the funeral in a body. Each room contributed flowers. The pallbearers were: Harold Kind, Harold Fottler, Lawrence Christianson, Eugene O'Connell, Walter Bowler and Percy Wiley. The honorary pallbearers were: Stanley Corum, Dixie Corum, Arbor Neilson, Elmer Neilson, Gordon Hussey and Lawrence Riley.

ON A VISIT.

Mrs. Wills Broucher arrived from Oakland a few days ago and is the guest of Mr. and Mrs. Shaw. Mrs. Broucher reports that her husband has nearly recovered from his long and serious illness and will soon return to this city.—Carson News.

BELIEVED THAT MURDER HAS BEEN COMMITTED

BODY OF MEXICAN FOUND WITH HEAD CRUSHED BY BLUNT INSTRUMENT.

Deputy Sheriff Vail Pittman received word yesterday from Manhattan stating that the body of the Mexican found between Spanish Springs and Helena had been brought to the placer camp, where a coroner's jury will be held. It is thought that the Mexican was murdered, for the top of his head had been crushed with some blunt instrument.

The first report received in Tonopah was to the effect that the death had been caused by a gun shot wound, but a careful search of the vicinity where the body was found failed to reveal a weapon of any kind and the wound differs from a gun shot wound.

SAVED A PROSPECTOR.

John Rosso, while looking for some cattle last Saturday morning, found an old man about 70 years old lying on the ground near Mud lake, two miles from the Chalk Hill ranch. He had no food and being utterly exhausted had laid down to die. Rosso supported and carried the man to the Chalk Hill ranch, where he was given food and put to bed. He said that he had been prospecting in the vicinity of the Largomarseno ranch and became lost. The ranchmen put him in a wagon yesterday and took him to the Five-Mile house. He said that he lived in Reno and could walk to his home from that place.—Virginia City Enterprise.
